

DIY Forage Necklace

Chimpanzees like to snack on dried treats in their bedrooms and in the forest. This activity is called foraging. What types of forage do you have in your home? Create your own forage necklace to snack on or simply wear! This activity can be adapted to what you have on hand. Ask a grown up for help!

Suggested Materials

String or yarn

Needle or other tool to string items

Cereal

Nuts

Dried fruit (like apples, apricots, or cherries)

Other dried snacks

Step 1

Gather your materials!

Step 2

Tie your string to the needle – have a grown help you get started!

Step 3

String your items onto your necklace.

Step 4

Make it as short or as long as you want!

Step 5

You created a forage mixture! What will you do with your necklace?
