

ORGANIZATIONAL OVERVIEW: At Chimp Haven we believe we're not that different, humans and chimpanzees. Chimps have personalities, emotions and relationships, just like us, and we're on a mission to connect them to the happy healthy lives they deserve. That's why we're providing and promoting personalized care for chimpanzees (most of whom were retired from biomedical research) by helping them, for their remaining years, live a good life – the chimp life. Chimp Haven serves as The National Chimpanzee Sanctuary and is located on 200 forested acres in northwest Louisiana just outside of Shreveport. Chimp Haven provides excellent care for more than 200 chimpanzees retired from research or no longer used in the entertainment industry or as pets. As more retired chimpanzees make their way from research institutions to sanctuary, our population continues to grow. Chimp Haven has a well-designed facility to support the physical and emotional well-being of all animals, experienced staff and high standards for operational excellence. Chimp Haven offers a competitive salary, excellent benefits, extensive training and an opportunity for professional advancement. Equal Opportunity Employer.

ANIMAL CAREGIVER
